Bleckmann moves from 9th to 5th place in Top 100 Logistics Service Providers 2026

Bleckmann is proud to announce that the company moves up from 9th to 5th place in the Top 100 Logistieke Dienstverleners (Logistics Service Providers) 2026, compiled by Logistiek.nl and BCI Global. This edition marks the 26th time that the ranking has been published – and it is the fourth in a row that Bleckmann has secured a place in the top 10. The list, which is traditionally dominated by logistics generalists, increasingly rewards companies that demonstrate a clear vision of innovation and sustainability.

The fact that we excel in these areas confirms that our strategic choices and hard work are paying off. This underlines our pioneering role in applying smart technologies and data-driven processes within our warehouses, which enable us to increase both efficiency and customer satisfaction.

“We are extremely proud of this recognition. Moving from 9th to 5th place is a fantastic achievement and a testament to the strength of our long-term strategy. Over the past years, we have remained focused on sustainable growth, continuously investing in our people, capabilities and customer partnerships,” said Jurrie-Jan Tap, Chief Business Development Officer at Bleckmann. “This recognition reflects the hard work, dedication and ambition of our entire team. While we are incredibly proud of this result, it also motivates us to keep striving for the highest standards in everything we do. It is rewarding to see our efforts delivering tangible results, and we remain firmly committed to building on this momentum in the years ahead.”
